

## Features:

- Fanless System for Noiseless Operation
- Ultra Low Power Consumption
- Aesthetic, Low Profile Design (~250ml volume)
- Supports a Rich Set of I/O devices and Peripherals
- VESA Mounting Kit included as standard accessory
- WinCE based Thin Client OS
  - **RDP** based Remote Desktop connectivity to Windows XP and 7, Windows Server 2003 and 2008.
  - Quick boot up time.
  - Ability to locally run WinCE applications.
  - Supports RedHat Linux, Ubuntu Linux and Fedora Linux servers through RDP connectivity.

Features aesthetic VESA mounting

World's smallest thin client. Powerful performance coupled with elegance and energy conservation.

## Hardware Specifications

<b>Processor</b>	ARM 533 MHz RISC Core Hardware graphics acceleration
<b>Memory</b>	DDR 64 MB soldered on-board
<b>Storage</b>	64 MB NAND Flash soldered on-board
<b>Display</b>	Up to 1920 × 1440
<b>Networking</b>	10/100 Mbps Fast Ethernet Port 802.11 b/g/n WLAN (Optional)
<b>I/O Ports</b>	1 × RJ-45 with diagnostic LEDs 3 × USB 2.0 1 × 15-pin VGA connector 2 × Audio: Mic In/Speaker Out 1 × Power Switch
<b>Diagnostic LEDs</b>	Power On/Off. HDD Activity.
<b>External Power Adapter</b>	Input: 100 ~ 240V AC Output: 5V/2A DC
<b>Dimensions</b>	172.5 × 153.5 × 20mm
<b>Weight</b>	500gm
<b>Operating Temperature</b>	0 ~ 50°C
<b>Certification</b>	CE

## Feature

## Benefit

- Simple, easy-to-use product
  - Most cost effective thin client in the Indian market
  - **Compact** design
  - **Smallest** thin client in the world
  - Consumes only **2W** of power
  - External power supply, easy to replace in case of failure
  - No moving parts
  - **Dust proof** body
  - Extreme thermal operating range of **0 to 50°C**
  - Only 2W heat generation
  - High humidity range
  - Wireless Support
  - USB ports
- Excellent RDP performance at a surprisingly low price.
  - Quick and easy installation and usage.
  - Local Internet Explorer browser to access web applications.
  - Ability to install WinCE applications locally.
  - Smallest thin client in the market – only 200 ml in volume!
  - Mounts behind the monitor, saving table space – zero footprint.
  - Save Rs. 1,500 every year in power, compared to PCs.
  - Overall power consumption of **15W**, including LCD, thin client, monitor and keyboard
  - Does not need UPS. Can run from home inverter.
  - 85% reduction in UPS and generator sizing, compared to PCs.
  - Completely fanless product.
  - Reliable design – no wear and tear due to moving parts.
  - Can be mounted in moving vehicles and on factory floors.
  - Run anywhere in India, without worrying about dust and heat.
  - Can handle low intensity drops.
  - Highest temperature range of any IT product in the market.
  - Product generates less heat, leading to longer life.
  - Does not need air conditioning to operate.
  - Works in coastal environment.
  - Option for internal or external WiFi 802.11 b/g/n.
  - Three external USB, one internal USB provide expandability.

*Stand for vertical or horizontal placement on the desk*

*In-built wireless option*
