Unleash Industrial Efficiency, Compact and Connected.

Engineered for seamless integration into demanding environments, the Thinvent® Aero Mini PC is your steadfast partner for digital signage, kiosk management, and control room operations. It delivers reliable, fanless performance where it matters most.

Why the Aero Mini PC is your smart choice

- Dependable 24/7 operation: Its robust, fanless design ensures silent and reliable performance in tight spaces, from retail floors to factory settings.
- Simplified network deployment: Dual Gigabit Ethernet ports provide flexible and stable wired connectivity, perfect for secure point-of-sale systems or networked monitoring stations.

- Ready for work out of the box: Comes with a dedicated industrial Windows 11 IoT platform pre-installed, offering long-term stability and security for your critical applications.
- Versatile peripheral support: A wealth of front and rear ports allows you to connect all essential displays, interfaces, and legacy devices with ease.
- Built to endure: A rugged steel casing and wide operating tolerances mean it thrives in environments where standard computers would falter.

Ideal Applications

From driving vivid digital menus to powering interactive information points, this mini PC is the robust, no-fuss computing core your project needs.
