Intel Core i3-1315U processor

6 core, up to 4.5 GHz, 10 MB cache

32GB DDR4 RAM (2 x 16GB)

512GB SSD

No WiFi

Windows 11 Professional

Thinvent Keyboard and Mouse set

SKU: AERO-I3_13-16_16-M512-12_7-X-110-KM

Meet the Aero Mini PC: big performance without the big tower.

A space-saving workhorse

The Thinvent Aero Mini PC is the unassuming powerhouse that tucks neatly behind your monitor, under your desk, or in the tightest of kiosk cabinets. Sidestep the clutter and cables of a traditional desktop and reclaim your workspace, while enjoying all the everyday computing muscle your team needs to fly through their day.

Business-ready from the moment it arrives

Slip the Aero out of the box, plug in the included keyboard and mouse, and you are ready for Windows 11 Professional within minutes. It is a complete package, so there is no extra kit to source and no hidden setup cost. Just switch it on and go.

Built for the jobs that never stop

Whether you are running a busy reception desk, a classroom, a retail check-out, or a demanding office environment, the Aero copes gracefully. The responsive processor handles spreadsheets, emails, web apps and video calls with ease, while the fast solid-state drive opens files and boots Windows in a heartbeat. With whisper-quiet running and low power draw, it is as friendly to your ears as it is to your energy bill.

Reliable and secure by design

Choose a dependable wired network connection rather than relying on flaky Wi-Fi - perfect for offices that demand rock-solid uptime. And with Windows 11 Professional, you get the security, encryption and remote management features that keep your data safe and your IT team happy.

The sensible upgrade

Why buy a bulky tower or pay a premium for a laptop you never move? The Aero gives you dependable desktop performance in a neat, sturdy steel-and-ABS case that just keeps going. Replace your ageing rigs with the Thinvent Aero Mini PC and enjoy a cleaner desk, a quieter room and a simpler life.
