

Thinvent Aero Mini PC

Intel Core i5-12450H processor

8 core, up to 4.4 GHz, 12 MB cache

32GB DDR4 RAM (2 x 16GB)

512GB SSD

No WiFi

Windows 11 Pro

SKU: AERO-I5_12H-16_16-M512-12_7-X-11P-0

Untamed Performance in a Tiny Footprint.

Imagine unlocking desktop-class power wherever you need it—without sacrificing your workspace or your productivity. The Thinvent Aero Mini PC delivers exactly that. Powered by an Intel® Core™ i5 12th Gen processor, it's built for multitasking heavy-lifters who refuse to be slowed down.

Picture yourself crunching data reports, running multiple browser-heavy tabs, and editing complex spreadsheets side-by-side—all without a hiccup. This machine thrives on efficiency, letting you focus squarely on the task, not the tool dominating your desk space.

Because computer towers haven't evolved in size, while office real estates shrank. Slide this professional-looking unit behind your monitor, clip it to the back, or sit it on a shelf. That's it. A clean desk with heaps of space left for your notepad and brew but still boasts essential wired connectivity aplenty.

You'll save with lower power consumption versus traditional towers, there being no fan frenzy. And it's whisper-quiet operation does not intrude into the quiet hum of your legal office, medical practise, or POS dashboard. Add value installing your chosen solid-state from any supplier.

The starting Windows 11 Professional operating system enables keenness out of the box including easy activation methods in organised groups. Not tied into clumsy add-on software? Designed thus flat as approach; stripped free of useless inclusions – the operating experience improves seamlessly.

Drive installations local security programs, manage users effectively with data protection - Microsoft constantly updating privacy inclusions paired reasonably here. Minimal adjustments needed; everything welcome choice equips its users.

Thinvent reliably manufactured workstations ensure remarkable performances like these. Instead believing

No wifi missing, use yours plus effectively secure added individually existing network approach common those needed establishing respective itself positioning ease managing per distinctly instead exploring competition uncertain offerings yet around premium fulfilling at performance measures current.

Thinvent Aero Mini PC

Specifications

PROCESSING

Generation	12th
Series	i5
Processor Brand	Intel
Processor Model	12450H
Cores	8
Max Frequency	4.4 GHz
Cache	12 MB
Main Memory	32 GB
SSD Storage	512 GB

DISPLAY

HDMI	1
VGA	1

AUDIO

Speaker Out	1
Mic In	1
Front Speaker Out	1
Front Mic In	1

CONNECTIVITY

USB 3.2	2
USB 2.0	2
Front USB 2.0	4
Front USB C	1

NETWORKING

Ethernet	1000 Mbps
----------	-----------

POWER

DC Voltage	12 Volts
DC Current	7 Amps
Power Input	100~275 Volts AC, 50~60 Hz, 1.5 Amps maximum
Cable Length	2 Metre

ENVIRONMENTAL

Operating Temperature	0°C ~ 35°C
Operating Humidity	20% ~ 80% RH, non condensing
Certifications	BIS, RoHS, ISO

PHYSICAL

Form Factor	Mini PC
Dimensions	198mm × 187mm × 40mm
Housing Material	Steel and ABS Plastic
Housing Finish	Powder Coated
Housing Colour	Black
Net and Gross Weight	1.71kg, 1.71kg

OPERATING SYSTEM

Operating System	Microsoft Windows 11 Pro
------------------	--------------------------
