Unleash robust computing power in a compact, industrial-grade package.

Ideal for business-critical and embedded applications where reliability is paramount.

Engineered for demanding environments

The Thinvent Aero Mini PC delivers silent, fanless operation and is built from rugged steel to thrive in harsh conditions, from factory floors to digital signage installations. Its dedicated dual Gigabit LAN ports ensure unwavering network reliability for control systems and secure data transfer.

Simplify deployment and management

Pre-installed with our secure, lightweight Thinix™ operating system, it arrives ready for your specialised software. Benefit from powerful remote management tools, including browser-based control and VNC, allowing for effortless oversight and maintenance from anywhere. This streamlined approach reduces setup time and total cost of ownership.

Power your specialised solutions

- Drive multiple displays for dynamic digital signage and information kiosks.
- Act as the dependable heart of automation, IoT gateways, and thin client setups.
- Support custom industrial applications with built-in support for Java and Python.

Choose the Aero Mini PC for a focused, powerful, and utterly dependable computing core that just works.
