Powerful, compact, and built for productivity—the Thinvent Aero Mini PC delivers desktop-class performance in a space-saving design.

Reliable performance for everyday business

Built around a modern AMD Ryzen 5 processor, this mini PC handles multitasking, spreadsheets, web browsing, and office applications with ease. Its efficient architecture keeps operations smooth and responsive, even when you're running multiple windows or browser tabs.

Ready for remote work and digital signage

With embedded Thinux Linux and built-in remote management tools (RDP, VNC, SSH), the Aero Mini PC is ideal for thin clients, kiosks, or branch office terminals. It supports video conferencing, SIP voice over IP, and multimedia playback, making it a versatile hub for communication and content.

Designed to save space and energy

Its slim, powder-coated steel chassis fits neatly behind a monitor or under a desk, freeing up valuable workspace. The low-power 12V adapter and fanless-cooled design keep noise and electricity bills down, perfect for 24/7 operation in retail, education, or healthcare environments.

Complete with peripherals, ready to deploy

Every unit comes with a Thinvent keyboard and mouse, plus a pre-installed Thinux Embedded Linux featuring Chromium and Firefox browsers, LibreOffice, and a PDF viewer. Just plug in, power up, and start working—no extra setup or licensing hassles.

Choose Thinvent Aero Mini PC when you need a dependable, affordable, and easy-to-manage computing solution that doesn't compromise on performance or expandability.
