Powerfully compact, effortlessly capable – the Thinvent Aero Mini PC brings workstation-class performance to the tightest spaces.

Why choose the Aero Mini PC over a traditional tower?

- It frees up valuable desk space while delivering enough processing muscle to handle demanding office applications, data entry systems, and digital signage.
- The AMD Ryzen™ 5 processor ensures smooth multitasking, so your team can run multiple programmes without slowdowns.
- With Windows 11 IoT Enterprise LTSC, you get a stable, long-term platform perfect for industrial environments where reliability matters.

- Plenty of USB ports, including a USB-C on the front, make connecting peripherals and accessories simple – no need for extra hubs.
- Dual-band Wi-Fi keeps your workflow wireless, while the Gigabit Ethernet port offers a rock-solid wired connection when you need it.
- The powder-coated steel and ABS housing is built to last in busy back-office or shop-floor settings.

Ideal for point-of-sale kiosks, thin client setups, and manufacturing floor workstations, the Aero Mini PC is the space-saving, no-compromise solution your business has been searching for. Make the switch to a mini that means business.
