

## Thinvent Aero Mini PC

**AMD Ryzen 5 7430U processor**

**6 core, up to 4.3 GHz, 16 MB cache**

**8GB DDR4 RAM**

**256GB SSD**

**No WiFi**

**Windows 11 Pro**

**Thinvent Keyboard and Mouse set**

SKU: AERO-R5\_7-8-S256-19\_3-X-11P-KM

**Power without the footprint.**

Your workspace deserves a computer that delivers serious performance without dominating your desk. The Thinvent Aero Mini PC brings the muscle of an AMD Ryzen 5 processor to a compact, powder-coated chassis that tucks neatly beside your monitor, under a shelf, or behind the screen itself.

Streamline your daily workflow. Whether you're running office applications, managing spreadsheets, handling customer data, or juggling multiple browser tabs, the Aero responds instantly. It's built for professionals who need reliable, quiet computing that stays out of sight and out of mind.

Dual-display support gives you a productivity boost without the clutter. Connect one screen via HDMI and another through the VGA port, perfect for comparing documents, monitoring dashboards, or running point-of-sale systems. The generous selection of USB ports – including a front-facing USB-C – lets you plug in peripherals, external drives, and memory sticks without reaching around the case.

Ready to work straight from the box. With Windows 11 Pro preinstalled plus a keyboard and mouse included, you can set up in minutes. The 128GB solid-state drive means fast boot times and snappy application loading, while the 4GB of memory handles everyday tasks with ease.

Built for the long haul. The steel and ABS housing is powder-coated for durability, and the internal components are chosen for reliability in continuous operation. This is a computer that earns its place in retail, healthcare, education, or any professional environment where space is tight but performance cannot be compromised.

Simplify your setup, maximise your space, and get to work.
