Big performance, small footprint.

Meet the Thinvent Aero Mini PC, powered by an AMD Ryzen 5 7530U processor. It brings six cores and speeds of up to 4.5 GHz to your desk, so everyday work feels quick and responsive. Whether you are running a billing counter, a front-desk terminal, a classroom station or a small office workstation, this machine keeps up without taking over your space.

Why the Aero makes sense for your business

- It handles real work: spreadsheets, billing software, browsing, video calls and point-of-sale applications all run smoothly on the Ryzen 5 platform.
- It fits where space is tight: at just 198mm × 187mm × 40mm, it sits neatly on or under a counter, in a kiosk or on a shelf.

- It is ready out of the box: Windows 11 Professional is preinstalled, so you can deploy it straight into your workflow.
- It connects to what you already own: HDMI and VGA outputs, six USB ports, USB C, gigabit Ethernet and front audio jacks cover monitors, printers, scanners and headsets.
- It is built for Indian conditions: certified to BIS, RoHS and ISO standards, with a powder-coated steel and ABS housing that stands up to daily use.
- It is easy to power: a 12V 5A adapter with a 2 metre cable gives you flexible placement.

If you want dependable computing that disappears into the background and lets your team get on with the job, the Thinvent Aero Mini PC is the sensible choice.
