The quiet powerhouse your factory floor has been waiting for.

Meet the workhorse

The Neo H is the high-performance flagship of our bestselling Neo family – the biggest, brawniest mini PC we make. It is engineered for industrial control and demanding embedded duties, where reliability and stamina matter far more than flash. Whether it is running a production line, monitoring equipment, or powering a control room dashboard, this machine simply gets on with the job.

Why you will want one

- A true industrial workhorse, built to handle continuous operation in challenging environments
- Passive fanless cooling means no moving parts, no dust-induced failures, and no noise – just dependable, silent running
- A generous array of connectivity ports makes it effortless to hook up to legacy machinery, displays, and peripherals

- Plenty of processing muscle and memory for multitasking across your control software, without hesitation
- Backed by Windows 11 Professional for a secure, familiar, and manageable platform

Built to last, made to be trusted

Housed in a solid steel chassis with a tough powder-coated finish, the Neo H shrugs off the knocks of everyday industrial life. It operates happily in warm, dusty environments where ordinary office PCs would struggle. And with 100% design and manufacturing in India, you are investing in engineering integrity and dependable local support.

When the pressure is on, the Neo H keeps its cool. It is the dependable partner for your automation, process control, and supervisory applications – ready to run around the clock, year after year. Make the switch to the mini PC that means business.
