Unleash industrial power in a compact, rugged package.

Engineered for demanding environments

This is the high-performance heart of your operation. The Thinvent Neo H Mini PC is our most robust industrial workhorse, built from the ground up in India to deliver relentless reliability where it matters most. Its solid steel construction and industrial-grade components are made to thrive on the factory floor, in control rooms, and within automation systems.

Why it's the smarter choice for industry

- Deploy a supremely reliable 24/7 computing core for machine control, HMI stations, and process monitoring.

- Leverage comprehensive connectivity to interface seamlessly with a vast array of industrial peripherals and legacy equipment.
- Utilise the dedicated Thinux embedded OS for a stable, secure, and versatile platform ready for custom industrial applications.
- Benefit from remote management and diagnostic tools, keeping your systems running smoothly with minimal physical intervention.
- Invest in durability with a 100% Indian-designed and manufactured unit built from steel for long-term value and support.

The Neo H is more than a computer; it's the dependable digital backbone for your critical industrial applications.
