Engineered for the relentless rhythm of industry: the Thinvent Neo H.

Built for Demanding Environments

Forget consumer-grade electronics. The Neo H is an industrial workhorse, engineered from the ground up for durability. Its solid steel chassis and rugged build are born to thrive on the factory floor, in control rooms, and in harsh settings where reliability is non-negotiable. This is 100% Indian design and manufacturing, built to withstand the test of time and task.

Uncompromising Power Meets Robust Connectivity

As the high-performance flagship of our bestselling Neo series, this mini PC delivers serious computational muscle for industrial control, automation, and machine interfacing. It tackles complex tasks with seamless efficiency, keeping your operations running smoothly. Dual Ethernet ports ensure critical, rock-solid network connections, while a host of legacy and modern ports provide unmatched flexibility to interface with a world of industrial equipment.

Deploy with Utmost Confidence

We deliver a complete, ready-to-work solution straight out of the box. With a trusted Windows IoT operating system pre-installed and including our own keyboard and mouse set, the Neo H minimises setup complexity and gets straight down to business. Choose the industrial computing partner that doesn't just perform, but endures.
