Unleash formidable industrial computing power in a compact, robust chassis.

Meet the Neo H: The High-Performance Industrial Workhorse

The Neo H is our most powerful and capable mini PC, engineered to thrive in demanding environments. Built on the strength of our bestselling Neo platform, it delivers exceptional processing muscle and rock-solid reliability for mission-critical operations. This is a true industrial-grade workhorse, 100% designed and made in India.

Engineered for Demanding Applications

- Power through complex industrial control, automation, and monitoring tasks with smooth, responsive performance.
- Its solid steel construction ensures exceptional durability, standing up to the rigours of factory floors and harsh operational settings.

- Dual LAN ports provide essential network redundancy and flexible connectivity for seamless integration into your systems.
- A host of ports offers versatile connectivity for a wide range of peripherals and displays, simplifying your setup.

Built for Reliability, Designed for India

- Experience unwavering stability with a design tested for continuous operation in challenging conditions.
- Benefit from local design and manufacturing, ensuring support and a product built for regional requirements.
- Deploy a supremely capable, compact computing solution that saves space without compromising on power or resilience.

The Thinvent Neo H: Where high-performance computing meets industrial-grade fortitude.
