Engineered for endurance, crafted for control: the Thinvent Neo H Mini PC.

Beyond the desktop, into the demanding heart of industry

The powerhouse of the Neo series has arrived. This isn't just a mini PC; it's an industrial-grade workhorse, 100% designed and made in India for reliability where it counts most. Built with a solid steel chassis, it thrives in environments where standard computers falter, delivering unwavering performance for your most critical control systems.

Why the Neo H is your essential industrial partner

- Dominate complex tasks with seamless multi-threading power, effortlessly managing industrial software, data acquisition, and control protocols without lag.
- Connect and command a vast array of machinery and peripherals simultaneously through its extensive port selection, including dual Gigabit LAN for robust network integration.

- Deploy with absolute confidence thanks to its rugged, powder-coated steel construction, built to withstand the rigours of the factory floor or control room.
- Enjoy a complete, ready-to-run solution out of the box with the included Ubuntu OS and Thinvent keyboard & mouse set, simplifying your setup and getting straight to work.
- Invest in sovereign reliability with a product built ground-up for Indian industrial applications, ensuring local support and enduring quality.

Command your operations with robust, dependable computing. The Neo H Mini PC is the steadfast core for industrial automation, digital signage, and machine control.
