Power that punches well above its weight.

Meet the Thinvent Neo H Mini PC – the high-performance version of our bestselling Neo series, and the most capable machine we make. If your work depends on speed, reliability and round-the-clock operation, this is the industrial workhorse you've been waiting for.

Designed for the job at hand

- Handles demanding industrial control and automation tasks with effortless ease
- Responds quickly to operator input and keeps multiple programmes running smoothly
- Plenty of memory and storage for logging data, running HMI software and managing busy production lines

Connectivity that keeps things moving

- Dual Gigabit Ethernet ports give you reliable, high-speed links to your network and machinery
- Dual-band Wi-Fi keeps you connected without trailing cables
- A full range of ports – including USB 3.2, HDMI, VGA and audio – means you can hook up displays, sensors and peripherals without fuss

- An optional RS485 interface lets you talk directly to industrial equipment

Built to last, made in India

- Housed in a solid, powder-coated steel chassis that shrugs off the bumps and knocks of a working environment
- Engineered to run continuously in temperatures up to 40°C, so it keeps its cool when things get hot
- 100% designed and made in India, with certifications you can trust
- Comes with Windows 11 Professional ready to go – no setup headaches, just plug in and start working

Whether you're upgrading a control cabinet, powering a digital signage display, or building a reliable edge-computing station, the Neo H gives you desktop-class muscle in a compact, tough and dependable package. It's the sensible choice for anyone who needs a computer that simply gets on with the job.
