Meet the Thinvent Neo H: the industrial powerhouse that keeps your operations moving.

This is the high-performance version of our bestselling Neo range, engineered for the toughest jobs in industrial control and automation. When you need a machine that never flinches, the Neo H delivers with brisk, responsive processing that powers through demanding workloads, smooth multitasking, and rapid data handling — all without breaking a sweat.

Why choose the Neo H?

- Built for the shop floor: a solid, powder-coated steel casing shrugs off dust, knocks, and the rigours of a hard-working environment, so it keeps running when it matters most.
- Connect everything: with dual gigabit Ethernet and a full spread of USB, HDMI, VGA, and serial ports, it slots straight into existing machinery, displays, and networks — no adapters, no fuss.

- Reliable round the clock: designed for continuous operation in industrial settings, it stays cool, quiet, and stable, day after day, year after year.
- A smart investment: generous memory and fast solid-state storage mean swift boot times and effortless application performance, so you spend less time waiting and more time producing.
- Proudly Indian: 100% designed and made in India, with BIS, RoHS, and ISO certifications, giving you confidence in quality, compliance, and dependable local support.

From factory control systems and machine monitoring to security gateways and edge computing, the Neo H is the workhorse your operation deserves. It's not just a PC — it's the backbone of your uptime.

Upgrade to the Neo H today, and give your industrial processes the muscle they need to thrive.
