The Neo H Mini PC: Unleash industrial-grade power in a compact, robust design.

Engineered for the heart of the factory floor

This is the high-performance powerhouse in our bestselling Neo series. Designed as an industrial workhorse, it delivers exceptional reliability and a host of connectivity options to tackle demanding control applications. With its solid steel construction, it's built to endure the rigours of any operational environment.

Why choose the Neo H for your industrial control systems

- Rugged reliability with a 100% designed and made in India solid steel build, ensuring durability where it matters most.
- Powerful processing muscle for seamless multitasking and rapid response in automation, HMI, and data acquisition roles.

- Versatile connectivity with dual LAN ports and a legacy serial port, simplifying integration with both modern and traditional industrial equipment.
- Compact form factor saves crucial space in control cabinets and confined installations without compromising on capability.
- Ready for immediate deployment with a pre-installed, stable operating system, reducing setup time and complexity.

Trust in robust, high-performance computing engineered for continuous operation. The Thinvent Neo H is the steadfast partner for your most critical industrial automation and control challenges.
