Power Your Industrial Vision with the Neo H Mini PC.

The next generation of industrial computing has arrived. The Thinvent Neo H Mini PC is our high-performance powerhouse, engineered in India for relentless reliability in demanding environments. It's the robust brain your critical operations deserve.

Built for the Long Haul

- Features a solid steel chassis with a powder-coated finish for superior durability against dust, vibration, and harsh conditions.
- 100% designed and made in India, ensuring quality and support you can trust.
- Its compact, industrial-grade form factor saves valuable panel or desk space without compromising on power.

Connectivity at Its Core

- Dual Gigabit Ethernet ports provide robust and reliable network connectivity for seamless data transfer and system integration.

- The integrated DB9 serial port offers legacy compatibility for industrial machinery, PLCs, and specialised equipment.
- Multiple display outputs, including HDMI and VGA, allow for flexible monitoring and control setups.

Your Industrial Workhorse

- Equipped with a powerful Intel Core processor to smoothly handle industrial control software, data logging, and automation tasks.
- Delivers steadfast performance for 24/7 applications, from factory floor monitoring to digital signage and kiosk management.
- Comes pre-installed with Windows 11 Pro for a familiar, secure, and professional operating environment right out of the box.

Choose the Neo H Mini PC. It's more than a computer; it's the dependable foundation for your most critical industrial applications.
