

## Thinvent Neo H Mini PC

### Intel Core i5-12450H processor

8 core, up to 4.4 GHz, 12 MB cache

**16GB DDR4 RAM**

**512GB SSD**

**Dual Band WiFi**

**Thinux Embedded Linux**

SKU: H-I5\_12H-16-M512-12\_7-M-  
THINUX-0

**Industrial performance, uncompromised.**

The Thinvent Neo H Mini PC is the powerhouse of the bestselling Neo family, engineered for demanding industrial environments where reliability and raw processing muscle matter most. This is not just another mini computer – it is an industrial workhorse, built from the ground up in India with a solid steel chassis that shrugs off the bumps and vibrations of the factory floor.

When your control systems, data acquisition tasks, or edge computing applications need consistent, responsive performance, the Neo H delivers. Its powerful 12th generation Intel Core i5 processor handles complex automation logic, multitasking, and real-time data processing without breaking a sweat. Whether you are running a production line HMI, a remote monitoring station, or a networked KVM setup, this machine keeps your operations ticking smoothly.

Connectivity is where the Neo H truly shines. With dual-band Wi-Fi, gigabit Ethernet, multiple USB ports, HDMI and VGA outputs, and comprehensive remote management tools baked into the Thinux Embedded Linux operating system, you can deploy, manage, and control it from anywhere. Built-in support for RDP, VNC, SSH, SIP voice and video, and browser-based management means your technical team can troubleshoot and maintain systems without being on site.

Every unit is 100% designed and made in India, giving you confidence in supply chain security and local support. The robust steel housing and powder-coated finish ensure long service life even in harsh conditions. Choose the Thinvent Neo H when you need a compact, resilient, and high-performance industrial computer that simply gets the job done.

# Thinvent Neo H Mini PC

## Specifications

### PROCESSING

|                 |         |
|-----------------|---------|
| Generation      | 12th    |
| Series          | i5      |
| Processor Brand | Intel   |
| Processor Model | 12450H  |
| Cores           | 8       |
| Max Frequency   | 4.4 GHz |
| Cache           | 12 MB   |
| Main Memory     | 16 GB   |
| SSD Storage     | 512 GB  |

### DISPLAY

|      |   |
|------|---|
| HDMI | 1 |
| VGA  | 1 |

### AUDIO

|             |   |
|-------------|---|
| Speaker Out | 1 |
| Mic In      | 1 |

### CONNECTIVITY

|         |   |
|---------|---|
| USB 3.2 | 2 |
| USB 2.0 | 2 |

### NETWORKING

|                     |                               |
|---------------------|-------------------------------|
| Ethernet            | 1000 Mbps                     |
| Wireless Networking | Wi-Fi 5 (802.11ac), dual band |

### POWER

|              |                                              |
|--------------|----------------------------------------------|
| DC Voltage   | 12 Volts                                     |
| DC Current   | 7 Amps                                       |
| Power Input  | 100~275 Volts AC, 50~60 Hz, 1.5 Amps maximum |
| Cable Length | 2 Metre                                      |

### ENVIRONMENTAL

|                       |                              |
|-----------------------|------------------------------|
| Operating Temperature | 0°C ~ 40°C                   |
| Operating Humidity    | 20% ~ 80% RH, non condensing |
| Certifications        | BIS, RoHS, ISO               |

### PHYSICAL

|                      |                       |
|----------------------|-----------------------|
| Form Factor          | Mini PC               |
| Dimensions           | 210mm × 202mm × 80mm  |
| Packing Dimensions   | 340mm × 235mm × 105mm |
| Housing Material     | Steel                 |
| Housing Finish       | Powder Coated         |
| Housing Colour       | Black                 |
| Net and Gross Weight | 1.82kg, 2.24kg        |

### OPERATING SYSTEM

|                  |                                                                                                                                                                                                                                                                                                                                    |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Operating System | Thinvent® Thinux™ Embedded Linux                                                                                                                                                                                                                                                                                                   |
| OS Features      | Chromium and Mozilla Firefox browsers.<br>RDP 10 (RemoteFX, H.264/AVC), Putty and SSH for remote display.<br>Browser based remote management. VNC shadowing.<br>Java, Python and glibc based location application support.<br>LibreOffice and PDF viewer.<br>Multimedia player with MPEG4 support.<br>SIP video and voice over IP. |
