Powering your industrial edge with uncompromising reliability.

Designed for the toughest jobs

- This High Performance Neo is the most powerful member of our bestselling family, built to handle demanding industrial control, automation, and monitoring tasks without breaking a sweat
- A true workhorse that thrives in factory floors, production lines, and edge computing environments where reliability isn't optional – it's essential
- Generous connectivity means you can hook up legacy VGA displays alongside modern HDMI screens, plus ample USB and gigabit Ethernet ports for sensors, controllers, and networks

Built to last, inside and out

- Encased in a solid steel, powder-coated chassis that shrugs off vibration, dust, and the bumps of a busy workspace
- 100% designed and manufactured in India, so you get local support, quality assurance, and the confidence that comes with a product built for our conditions

- Comes ready to work with Windows 11 IoT Enterprise LTSC 2024 – a stable, long-term platform for mission-critical applications – plus a full-size keyboard and mouse to get you productive from the moment you unbox

Why choose Thinvent Neo H

- It's the upgrade you need when standard mini PCs fall short: more processing muscle, more memory capacity, and a robust form factor that keeps running shift after shift
- Backed by certifications including BIS, RoHS, and ISO – proof of compliance with the standards that matter in industrial settings
- Ideal as a drop-in replacement for aging hardware, giving your operations a performance boost without complicating your existing setup

Give your industrial applications the power and dependability they deserve.
