Industrial strength, refined for the modern workshop.

Built to master the toughest industrial environments, the Thinvent Neo H Mini PC is the high-performance edition of our best-selling Neo series. This is more than a computer – it's a reliable workhorse designed for continuous, demanding tasks like machine control, data acquisition, and automation.

Every component is chosen for endurance. Powered by a formidable eight-core processor, the Neo H handles complex calculations and multitasking without breaking stride. The robust solid steel chassis shrugs off vibration, dust, and the knocks of a busy factory floor, while the power-efficient design keeps it running cool and quiet.

Why choose the Thinvent Neo H for your next project?

- Purpose-built for industrial control: VGA and HDMI outputs let you connect to older and modern displays, while dual Ethernet, USB 3.2, and USB 2.0 ports give you the flexibility to link sensors, PLCs, and peripherals.

- Engineered for long life: With a stable 12V DC input, passive reliability, and a powder-coated steel housing, this mini PC is designed for years of round-the-clock operation.
- Pre-loaded with Ubuntu Linux 24.04 LTS: A secure, stable, and virus-resistant operating system – ideal for embedded and headless applications. No unnecessary bloatware, just a clean foundation for your software stack.
- Designed and manufactured in India: Backed by BIS, RoHS, and ISO certifications, the Neo H is built with uncompromising quality you can trust.
- Complete out of the box: Each unit includes a Thinvent keyboard and mouse set, so you can start deploying immediately – no extra hassle.

For engineers, integrators, and manufacturers who need uncompromising performance in a compact, rugged form factor, the Thinvent Neo H is the professional's choice. It's not just a mini PC – it's the heart of your next industrial solution.
