Uncompromising power for the most demanding industrial environments.

### Why choose the Neo H Mini PC

- Built for round-the-clock operation in factory floors, control rooms, and automation hubs, this industrial workhorse handles complex control systems and data-intensive tasks without breaking a sweat
- Its robust, powder-coated steel chassis withstands the bumps, vibrations, and dust of real-world manufacturing, giving you a machine that lasts years longer than consumer-grade alternatives
- A wealth of connectivity options – from legacy ports to modern interfaces – means you can integrate seamlessly with existing PLCs, HMIs, and sensors, slashing deployment time and cost
- Every unit is 100% designed and made in India, ensuring local support, fast turnaround, and compliance with Indian industrial standards
- The high-performance iteration of our bestselling Neo series, it delivers the extra headroom you need for future-proof applications without unnecessary bulk
- Backed by Thinvent's reputation for reliability, this is the professional's choice for mission-critical control, monitoring, and edge computing

Whether you're modernising a production line or building a new SCADA system, the Neo H gives you the muscle and the dependability to keep operations running smoothly, shift after shift.
