Uncompromising performance for the toughest industrial jobs.

The powerhouse you can rely on

Built for the demanding environments of industrial control, this mini PC delivers the raw processing muscle you need to run complex automation, data logging, and machine vision tasks without a hitch. It's the high-performance version of our bestselling Neo model, engineered to handle heavier workloads with ease.

Connect and command with confidence

With a generous array of ports including dual display outputs and gigabit Ethernet, you can link multiple workstations, HMIs, or sensors effortlessly. Remote management is built right in, so you can monitor and maintain systems from anywhere using RDP, VNC, or SSH.

Designed for longevity, built in India

Housed in a solid steel chassis, this machine is made to endure the knocks and vibrations of the factory floor. Every unit is 100% designed and manufactured in India, ensuring robust quality and local support you can trust.

Out of the box, ready to work

Pre-loaded with Thinix Embedded Linux, you get all the essential tools – browsers, remote desktop, and office suite – with no licensing fees. The included keyboard and mouse mean you're up and running the moment it lands on your desk.

Choose the workhorse that keeps your operations moving.
