

## Thinvent Neo H Mini PC

### Intel Core i5-12450H processor

8 core, up to 4.4 GHz, 12 MB cache

**64GB DDR4 RAM (2 x 32GB)**

**256GB SSD**

**No WiFi**

**Without OS**

SKU: H-I5\_12H-32\_32-S256-12\_5-X-W\_OS-0

Power meets resilience: the Thinvent Neo H brings raw computing muscle to the toughest environments.

Built as the high-performance version of our bestselling Neo series, this industrial workhorse is our largest and most capable mini PC yet. Whether you're managing automated production lines, running real-time data acquisition, or controlling complex machinery, the Neo H delivers the responsive, multi-tasking performance you need without breaking a sweat.

Connectivity is king in industrial settings, and the Neo H offers a generous array of ports to link your screens, peripherals, and legacy equipment. Hook up a monitor via HDMI and another via VGA – no expensive adapters required – and connect sensors, controllers, or storage devices through the multiple USB 3.2 and USB 2.0 ports. A gigabit Ethernet port ensures reliable network communication for supervisory control or remote monitoring.

Built to last, the Neo H is housed in a solid steel chassis with a durable powder-coated finish. It's 100% designed and made in India, so you get local support and quality you can trust. The fanless or low-noise operation (depending on configuration) keeps things quiet on the factory floor, while the wide operating temperature range means it keeps working when the heat is on.

Forget unnecessary extras like built-in WiFi or a pre-installed operating system – you have total control over your security and software stack. Install your preferred OS, configure your own network, and run the exact industrial applications your operation demands.

The Thinvent Neo H Mini PC is the reliable, powerful, and customisable foundation for your next industrial control project.

## Specifications

### PROCESSING

|                 |         |
|-----------------|---------|
| Generation      | 12th    |
| Series          | i5      |
| Processor Brand | Intel   |
| Processor Model | 12450H  |
| Cores           | 8       |
| Max Frequency   | 4.4 GHz |
| Cache           | 12 MB   |
| Main Memory     | 64 GB   |
| SSD Storage     | 256 GB  |

### DISPLAY

|      |   |
|------|---|
| HDMI | 1 |
| VGA  | 1 |

### AUDIO

|             |   |
|-------------|---|
| Speaker Out | 1 |
| Mic In      | 1 |

### CONNECTIVITY

|         |   |
|---------|---|
| USB 3.2 | 2 |
| USB 2.0 | 2 |

### NETWORKING

|          |           |
|----------|-----------|
| Ethernet | 1000 Mbps |
|----------|-----------|

### POWER

|              |                                              |
|--------------|----------------------------------------------|
| DC Voltage   | 12 Volts                                     |
| DC Current   | 5 Amps                                       |
| Power Input  | 100~240 Volts AC, 50~60 Hz, 1.5 Amps maximum |
| Cable Length | 2 Metre                                      |

### ENVIRONMENTAL

|                       |                              |
|-----------------------|------------------------------|
| Operating Temperature | 0°C ~ 40°C                   |
| Operating Humidity    | 20% ~ 80% RH, non condensing |
| Certifications        | BIS, RoHS, ISO               |

### PHYSICAL

|                      |                       |
|----------------------|-----------------------|
| Form Factor          | Mini PC               |
| Dimensions           | 210mm × 202mm × 80mm  |
| Packing Dimensions   | 340mm × 235mm × 105mm |
| Housing Material     | Steel                 |
| Housing Finish       | Powder Coated         |
| Housing Colour       | Black                 |
| Net and Gross Weight | 1.73kg, 2.14kg        |

### OPERATING SYSTEM

|                  |            |
|------------------|------------|
| Operating System | Without OS |
