Power through your toughest industrial tasks with the Thinvent Neo H Mini PC – the high-performance workhorse built to handle relentless demand.

Built for the factory floor, not the office desk

- With its powerful 8-core processor, this machine crunches through complex control algorithms and data logging without a hitch.
- Multiple USB and display ports mean you can connect legacy equipment and modern screens side by side, all from one compact unit.
- Solid steel housing shrugs off vibration, dust, and the knocks of a busy production line, keeping your operation running shift after shift.

The ideal replacement for ageing industrial controllers

- Upgrade your existing systems without a complete overhaul – the Neo H's wide compatibility and VGA output make it a seamless drop-in for older hardware.
- Dual-band Wi-Fi gives you flexible networking options, whether you need a wired backbone or wireless monitoring access.

100% designed and made in India, with rigorous certification, this Mini PC delivers the reliability your critical applications demand. It's the powerful, rugged choice for automation, machine control, and data acquisition – all backed by Thinvent's solid construction and thoughtful engineering.

Bring industrial strength to your next project.
