Power your industrial applications with uncompromised performance.

Why the Neo H Mini PC stands apart

- Designed for demanding 24/7 operations, this high-performance workhorse delivers the raw processing power and dependable operation your factory floor, control system, or embedded application requires
- A host of connectivity options, including HDMI, VGA, multiple USB ports and gigabit Ethernet, make it simple to integrate with existing machinery, displays, and peripherals
- Housed in a solid steel, powder-coated chassis, this machine is built to withstand the bumps, vibrations, and harsh conditions of real-world industrial environments
- As a proudly 100% Indian-designed and Indian-made product, you benefit from local support, shorter supply chains, and the confidence that comes with rigorous domestic quality standards
- The largest model in our bestselling Neo series, it offers the extra expansion headroom and cooling capacity needed for sustained heavy workloads without compromising reliability

From programmable logic controllers to vision systems and machine monitoring, the Neo H Mini PC brings enterprise-grade stability to vital industrial tasks. Choose the workhorse that keeps your operations moving.
