Engineered for relentless industrial performance.

The Thinvent® Neo H Mini PC is the high-performance evolution of our bestselling platform. Designed and built entirely in India, this industrial workhorse delivers formidable processing power and unmatched reliability for the most demanding control environments. Its solid steel construction ensures it thrives where other computers fail.

Why the Neo H is your essential industrial partner

Uncompromising power for complex tasks

- Tackle sophisticated automation, machine vision, and data acquisition with effortless speed and stability.
- Run multiple control applications simultaneously without lag or interruption.

Built to endure the toughest conditions

- Its rugged, powder-coated steel casing shrugs off dust, vibrations, and the rigours of the factory floor.
- Operates reliably in a wide range of temperatures, ensuring continuous uptime.

Maximum connectivity for seamless integration

- Dual Gigabit Ethernet ports enable robust network redundancy and device management.
- Legacy serial support and abundant USB ports allow direct connection to a vast array of industrial machinery and peripherals.
- Flexible display outputs provide easy interfacing with monitors and control panels.

Experience the pinnacle of industrial computing. The Neo H delivers the robust performance and steadfast reliability your critical operations demand, keeping your productivity on track without compromise.
