The industrial workhorse, redefined. Meet the Thinvent® Neo H Mini PC, where formidable power meets unwavering reliability in a compact, all-steel frame. Built for the most demanding environments, it delivers the robust performance you need to keep critical operations running smoothly.

The powerhouse within

Harness the exceptional capability of a high-performance Intel® processor, engineered to effortlessly manage complex industrial control tasks and multi-threaded applications. This is raw computational strength in a resilient package.

Built to endure

- Encased in a solid steel housing with a powder-coated finish for superior protection against dust, vibrations, and the rigours of the factory floor.
- Operates reliably across a wide range of temperatures, ensuring consistent performance where it matters most.
- 100% designed and made in India, supporting local industry with globally benchmarked quality.

Connectivity at its core

- Dual Gigabit Ethernet ports provide network redundancy and high-speed data transfer for seamless machine-to-machine communication.
- A comprehensive selection of legacy and modern ports offers ultimate flexibility for connecting to a vast array of industrial peripherals and displays.

Why choose the Neo H?

Forget complex IT setups. This is a dedicated, powerful computing core for industrial automation, digital signage, and control systems. Its robust, fanless design minimises maintenance, while its premium components guarantee longevity. Choose the Neo H for a steadfast partner that boosts productivity without compromise.
