Engineered for Endurance: The Industrial Workhorse, Made in India.

Introducing the Neo H Mini PC, our high-performance powerhouse. This isn't just another computer; it's a robust, reliable partner built from the ground up for demanding industrial environments. Crafted with a solid steel chassis, it's designed to withstand the rigours of the factory floor and deliver unwavering performance where it matters most.

Why the Neo H is Your Next Critical System

- Uncompromising Reliability: Built tough in India with a rugged, powder-coated steel enclosure, it offers superior durability for 24/7 operation in challenging conditions.
- Effortless Industrial Integration: Featuring dual Ethernet ports and a wealth of connectivity, it seamlessly connects to PLCs, HMIs, and legacy machinery for complete control.

- Pure Processing Power: Harness the robust performance of a high-core-count Intel processor to run multiple control applications, data logging, and visualisation tasks smoothly and without lag.
- Simplified and Secure Operation: Arrives ready-to-run with a stable Ubuntu Linux OS and includes a keyboard & mouse set, offering a secure, bloat-free foundation for your specialised software.

Ideal for Industrial Control & Automation

Deploy the Neo H as the dependable brain behind machine automation, production line monitoring, or digital signage networks. It's the robust, high-performance solution for engineers and system integrators who value durability, seamless connectivity, and trusted, locally-engineered quality. Choose the workhorse built to last.
