Powerhouse performance, built for the long haul.

Meet the Thinvent® Neo H Mini PC – the high-performance flagship of our bestselling Neo family. If you need serious computing muscle in a compact, dependable form, this is your machine. It is the largest and most powerful Neo we make, engineered to handle demanding industrial environments without breaking a sweat.

Why it works for you

- Delivers responsive, multi-tasking performance that keeps your operations flowing smoothly, even when workloads get heavy
- Purpose-built for industrial control, automation and similar always-on applications where downtime is not an option
- Genuinely tough, with a solid steel, powder-coated chassis that shrugs off the knocks, vibrations and grime of a factory floor
- Designed and made entirely in India, so you can trust in quality craftsmanship and dependable after-sales support

Connectivity that keeps things moving

- Dual network ports mean you can link multiple systems, connect to secure networks, or set up reliable data transfer without extra hardware
- A full range of ports and video outputs lets you hook up legacy equipment and modern displays alike, with no fuss
- Runs on Windows 11 Professional, giving you familiar tools, robust security and seamless integration into your existing setup

The quiet workhorse your business can rely on

- Stable, efficient operation that keeps running through long shifts, dust and heat
- Space-saving design that fits neatly into control cabinets, workbenches or tight corners
- Backed by certifications for safety and reliability, so you can install it with confidence

When you need a computer that just keeps working, the Neo H delivers. It's not just a PC – it's the dependable partner your operation deserves.
