Meet the workhorse that never blinks.

The Neo H is the high-performance flagship of our bestselling Neo range, and it exists for one reason: to keep your operations moving when everything depends on it. Whether you're overseeing a factory floor, running a control system, or managing critical infrastructure, this is the machine you can rely on day in, day out, in conditions that would fluster lesser kit.

Why it's the right choice

- Powerful enough to handle demanding industrial software without breaking a sweat, so your processes stay smooth and responsive
- Plenty of memory and storage to keep multiple applications running at once, reducing downtime and frustrating lag
- A full range of connectivity options, including both modern and legacy ports, so it slots easily into existing setups and new builds alike

- Runs Windows 11 Professional, giving you the familiar, secure and manageable environment your team already knows

Built for the real world

This is no fragile office box. The solid steel housing shrugs off dust, vibration and the occasional knock, while its robust design is made to cope with the heat and bustle of a working industrial site. Because it is 100% designed and made in India, you also get dependable quality, straightforward support and the peace of mind that comes from a product built to last.

If you need a compact yet mighty computer that just gets on with the job, the Neo H is the one to call on. It is the dependable partner your operation deserves, ready to run from day one and keep going for years.
