Power Your Industrial Operations with the Thinvent Neo H Mini PC

Compact muscle for demanding industrial environments. The Thinvent Neo H combines a 12th generation Intel Core i7-12700 processor with a 12-core design and boost speeds up to 4.9 GHz, delivering the performance your control and automation tasks depend on.

Built for the factory floor, the Neo H is the high performance version of our bestselling Neo model. Its steel base and aluminium cover, finished in powder coated black, give it a tough, professional look that suits demanding settings, and it is designed and made in India.

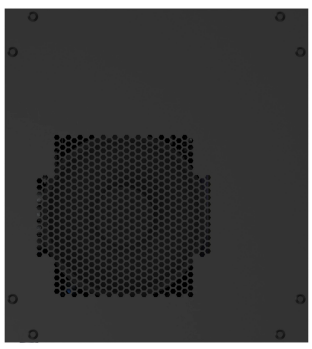

Connectivity is where the Neo H truly shines. Dual HDMI and DisplayPort outputs let you drive multiple screens, while two USB 3.2 Gen 2 and two USB 3.2 Gen 1 ports connect your peripherals quickly. Gigabit Ethernet and dual band Wi-Fi keep your network connections reliable, and audio and microphone ports support voice and multimedia applications.

Thinux Embedded Linux comes ready to work, with the Chromium and Firefox browsers, LibreOffice, a PDF viewer and multimedia playback. Remote management is straightforward, with RDP, SSH, Putty, VNC shadowing and browser based administration. Support for Java, Python and glibc based applications, along with SIP video and voice over IP, makes it adaptable to a wide range of tasks.

Choose the Neo H when you need a capable, connected system that handles heavy workloads, keeps your operations moving and supports industrial control and similar applications with confidence.
