Unleash industrial-grade power in a compact, unbreakable frame.

Introducing the Thinvent Neo H: the high-performance powerhouse built for relentless duty.

Born from our bestselling Neo series, the Neo H is our most formidable mini PC yet. It's engineered in India for the toughest environments, featuring a robust solid steel chassis that shrugs off dust, vibration, and the demands of 24/7 operation.

Engineered for Industry

Where it excels

- Command complex industrial automation and control systems without a stutter.
- Drive multiple high-resolution displays for digital signage and process monitoring.

- Act as a reliable network gateway or firewall with its dual Ethernet ports.
- Connect seamlessly to legacy machinery and modern peripherals with its comprehensive I/O.

Built to endure

Its fanless design and wide operating temperature range ensure silent, dependable performance where other computers fail. This isn't just a computer; it's an industrial workhorse ready to bolster your operations from the factory floor to the control room.

Choose the Neo H for robust, reliable computing power that simply gets the job done, day in and day out.
