Unleash industrial-grade computing power in a compact, rugged form.

The High-Performance Neo H: Engineered to be the robust nerve centre for your most demanding applications.

Built for relentless duty in challenging environments, the Neo H Mini PC combines formidable processing muscle with exceptional durability. This isn't just a computer; it's a reliable industrial partner designed to drive control systems, manage machinery, and process complex data without faltering.

Key advantages

- Superior processing muscle handles intensive industrial software and multi-tasking with seamless efficiency.
- Unmatched reliability with a solid steel construction, built to withstand the rigours of factory floors and control rooms.

- Essential legacy connectivity, including a dedicated serial port, ensures seamless integration with existing industrial equipment.
- Dual Gigabit Ethernet ports provide critical network redundancy and fast data transfer for uninterrupted operations.
- Proudly 100% designed and made in India, supporting local industry with world-class engineering.

Ideal for industrial automation, process control, digital signage, and ruggedised kiosks. Choose the Neo H for a powerhouse that delivers day-in, day-out performance where it matters most.
