Unleash relentless industrial computing power.

The ultimate workhorse for demanding applications, the Thinvent® Neo H Mini PC is engineered for non-stop operation in the toughest environments. Built to be the dependable core of your control systems, it turns complexity into seamless reliability.

Perfect for your critical operations

- Drive sophisticated industrial automation and control panels with unwavering stability.
- Manage multiple data streams and networked devices simultaneously without a stutter.

- Serve as a compact, robust server for monitoring, data aggregation, or edge computing tasks.

Built to endure and perform

Forged from solid steel and proudly 100% designed and made in India, its rugged build shrugs off the rigours of the factory floor. Dual LAN ports and a host of connectivity options ensure it integrates effortlessly into your existing infrastructure, while the efficient design runs cool and quiet under sustained loads. This isn't just a computer; it's the steadfast, high-performance engine your industrial processes can depend on, day in and day out.
