Power Through Your Toughest Industrial Challenges: The High-Performance Neo H.

Where reliability meets raw power, the Thinvent® Neo H Mini PC is engineered for the relentless demands of industrial environments. As the high-performance flagship of our bestselling Neo line, it delivers unwavering processing muscle to drive your most critical control systems and applications.

Built for the real world

- Experience robust, fanless operation in temperatures from 0° to 40°C, ensuring continuous performance where it matters most.

- Rely on a solid steel, powder-coated housing that stands up to vibration, dust, and the rigours of the factory floor.
- Connect with confidence using dual Gigabit LAN ports and a dedicated DB9 serial port for seamless integration with legacy machinery and modern networks.

Proudly engineered and manufactured entirely in India, the Neo H is more than a computer; it's an industrial workhorse. It provides the dependable core for automation, process control, and HMI systems, keeping your operations running smoothly 24/7. This is computing power, built solid.
