Unleash formidable industrial computing power, built to last.

The High-Performance Neo H: Engineered for the most demanding control environments, this is our pinnacle of industrial-grade computing. It delivers relentless processing muscle for complex automation, machine vision, and real-time monitoring tasks without breaking a sweat.

Built for relentless duty

- Experience robust performance for critical industrial control systems and harsh environments.
- Rely on extensive legacy and modern connectivity to interface seamlessly with a vast array of machinery and instrumentation.
- Benefit from a solid, steel-built chassis designed for 24/7 reliability and durability on the factory floor.

- Support domestic innovation with a system that is 100% designed and made in India, ensuring quality and supply chain resilience.

Where it excels

- Industrial automation and process control systems.
- Digital signage and kiosks in demanding public or commercial spaces.
- As a dedicated controller for manufacturing, packaging, or assembly lines.
- Any application requiring a dependable, powerful, and connectable industrial workhorse.

Choose the Neo H Mini PC for where uncompromising power meets unshakeable industrial toughness. It's not just a computer; it's the robust heart of your most critical operations.
