Unleash Industrial Strength Computing with the Neo H Mini PC.

Where raw power meets rugged reliability for your most demanding applications.

Built for Demanding Environments

- Engineered as a high-performance industrial workhorse, ready to tackle complex control and automation tasks with ease.
- Its robust, solid steel construction ensures unwavering durability in harsh conditions, from factory floors to remote installations.
- Benefit from a host of connectivity options, including legacy serial support, seamlessly integrating with both modern and established industrial equipment.

Empower Your Operations

- Experience smooth, responsive performance for industrial HMI, machine control, and data acquisition, keeping your processes running efficiently.
- The included embedded operating system is optimised for stability and includes essential tools for remote management and application development.
- Proudly 100% designed and made in India, supporting local industry with a product built to global standards of quality and resilience.
