### Industrial muscle, refined for your toughest jobs

The Thinvent Neo H Mini PC is the high-performance heart of our acclaimed Neo series, engineered for environments where reliability is non-negotiable. Whether you're monitoring a production line, running a digital signage network, or managing critical industrial control systems, this machine delivers the raw power you need without taking up precious floor space.

- Built for continuous operation, this workhorse handles demanding applications with effortless grace, thanks to its potent AMD Ryzen processor and generous memory configuration.

- Stay connected across every interface that matters – from legacy ports to modern networking – ensuring seamless integration into your existing setup.
- The robust, powder-coated steel case protects against dust, vibration, and temperature swings, making it ideal for factory floors, kiosks, or remote installations.
- Every unit is 100% designed and made in India, offering you local support, rapid supply, and the confidence of quality manufacturing.

Don't settle for a compromised mini PC. Choose the Neo H for the dependable, high-performance computing backbone your operations deserve. It's not just a computer; it's your industrial advantage.
