Meet the workhorse your operation has been waiting for.

Power where it matters most

The Neo H is the high-performance flagship of our bestselling Neo range, ready to power through demanding industrial control, machine monitoring, and edge computing tasks without breaking a sweat. When the production line can't stop, neither can your hardware — and this mini PC is built to keep pace.

Engineered for real-world endurance

Housed in a solid steel chassis with a tough, powder-coated finish, the Neo H shrugs off the bumps, vibrations, and knocks of a busy workshop or factory floor. It is designed to run reliably in demanding environments, so you can focus on throughput, not downtime.

Connectivity that works around you

With a generous selection of ports and dual-band WiFi, the Neo H slots effortlessly into existing setups. Whether you are linking to older control equipment or modern network infrastructure, this machine bridges the gap with ease. Set it up once and let it get on with the job.

Confidence from a clear heritage

Every Neo H is 100% designed and made in India, backed by Thinvent's commitment to quality and ISO-certified manufacturing. It ships with Windows 11 Professional, giving you a secure, familiar platform from the moment you switch it on.

The smart choice for serious operations

If you need dependable processing power, robust construction, and the flexibility to handle a variety of industrial roles, the Neo H is the upgrade your business deserves. Keep your processes moving, your systems responsive, and your mind at ease.
