Industrial computing power that's built to last, right here in India.

Rugged and reliable for the factory floor

- Solid steel housing with a powder-coated finish stands up to demanding industrial environments.
- Compact footprint fits easily into control cabinets, kiosks, or workstations without wasting space.

Performance you can count on

- The powerful AMD Ryzen™ 5 processor delivers smooth multitasking and responsive control for automation, data logging, and HMI applications.
- Generous memory and fast SSD storage ensure your programs run efficiently, even with multiple tasks running simultaneously.

Connectivity made simple

- A full range of ports – including HDMI, VGA, multiple USB ports, and gigabit Ethernet – makes it easy to hook up displays, peripherals, and industrial sensors.

- Wired Ethernet connection provides stable, low-latency networking essential for real-time control.

Designed for your workflow

- Ships with FreeDOS so you can install exactly the operating system and software your applications require.
- Includes a complete keyboard and mouse set – everything you need to get started straight out of the box.

Proudly Indian

- 100% designed and manufactured in India, ensuring quality control, local support, and supply chain reliability.
- Certified to BIS, RoHS, and ISO standards, giving you peace of mind in safety and compliance.

Whether you're upgrading an existing control system or building a new automation station, the Thinvent Neo H Mini PC delivers the performance, durability, and flexibility your operations demand.
