Power meets resilience in the smallest footprint

Built for the most demanding industrial environments, the Neo H Mini PC takes the proven reliability of our bestselling Neo series and amplifies every aspect. This is not just a computer; it is an industrial workhorse designed to keep your critical operations running smoothly, day in and day out.

Why choose the Neo H for your next project?

- Unmatched performance for complex tasks: With a powerful, multi-core processor and ample memory configuration, this machine handles industrial control, data logging, and automation software without breaking a sweat. Say goodbye to lag and hello to seamless multitasking.
- Robust connectivity for any setup: A comprehensive selection of ports, including dual USB 3.2, gigabit Ethernet, HDMI, VGA, and dual-band Wi-Fi, means you can connect legacy equipment and modern peripherals with ease. No extra adapters needed.

- Built to last in harsh conditions: The solid steel, powder-coated housing stands up to vibration, dust, and temperature swings. It's engineered for continuous 24/7 operation in factories, workshops, and control rooms.
- Designed and manufactured in India: Every Neo H is 100% engineered and assembled in India, ensuring strict quality control, local support, and a supply chain you can trust. It's a product made for reliable performance, backed by Thinvent's reputation.
- Space-saving industrial grade: Despite its enormous capability, the compact form factor slides into tight racks, behind displays, or inside control cabinets. Powerful computing doesn't have to take over your workspace.
- Ready to deploy out of the box: Pre-installed with a robust, long-term-servicing Windows operating system, the Neo H is ready for your application from the moment you power it on. Focus on your work, not on setup.

Drive your industrial automation with confidence. The Neo H Mini PC is the dependable partner your operations deserve.
