Power without compromise for demanding industrial environments.

Built for the toughest jobs

The Neo H is our largest and most powerful mini PC, engineered to handle the heavy lifting in industrial control, automation, and data processing. Whether you are managing production lines, running SCADA systems, or powering digital signage, this machine delivers relentless performance in a compact, rugged package.

Why choose the Neo H

- Exceptional processing power from a six-core AMD Ryzen 5 processor – ideal for multitasking and complex calculations without lag.
- Robust steel chassis with powder-coated finish, built to survive factory floors, workshops, and 24/7 operation.

- Comprehensive connectivity – multiple USB ports, HDMI, VGA, and Gigabit Ethernet – so you can connect legacy equipment and modern peripherals with ease.
- Designed and manufactured entirely in India, ensuring quality, support, and reliability you can trust.

Your next industrial workhorse

Say goodbye to underpowered PCs that struggle under load. The Neo H is the upgrade you need to boost productivity, reduce downtime, and simplify maintenance. It arrives with FreeDOS, ready for your preferred operating system and applications. No bloatware, just pure performance.
