Unleash industrial-grade performance in a compact powerhouse.

Performance that powers your production

- Drive demanding control systems and automation tasks with the most powerful variant of our bestselling Neo series
- Tackle complex calculations and data processing with confidence, all within a rugged, space-saving chassis
- Boot and run applications swiftly, keeping your moving without a hitch

Built for the shop floor, not the showroom

- Robust steel housing with powder-coated finish withstands vibration, dust, and daily knocks in harsh environments
- Fanless, maintenance-free operation ensures reliable uptime in factories and workshops
- Operates reliably from zero to forty degrees Celsius,

handling temperature swings common in industrial settings

Connectivity designed for real-world integration

- Multiple USB and display ports let you link legacy kit and modern monitors without adapters
- Gigabit Ethernet keeps PLCs, sensors, and network controllers communicating without lag
- VGA and HDMI outputs give you flexible options for HMI screens and diagnostic displays

The intelligent choice for Indian industry

- One hundred percent designed and manufactured in India, supporting local engineering and supply chains
- Backed by Thinvent's ISO and RoHS certifications, ensuring quality and compliance
- Includes Ubuntu Linux pre-installed with Thinvent keyboard and mouse, so you can start deploying straight out of the box

Upgrade your industrial control systems with a computer engineered to work as hard as you do.
