Meet the workhorse that means business.

The Thinvent Neo H Mini PC powers your industrial ambitions like never before.

Why this machine is the right choice for your operation

- It's built for demanding industrial control tasks, from factory floor management to automation systems.
- The solid steel chassis is designed to withstand the toughest environments, giving you reliable uptime day after day.
- A wealth of connectivity options means you can plug into almost any setup without extra adapters or hassle.
- This is the high-performance edition of our bestselling Neo model, delivering the processing muscle you need for complex workflows.

- Every unit is 100% designed and made in India, supporting local manufacturing without compromising on global standards.
- Thinix Embedded Linux comes pre-loaded with browsers, remote desktop tools, and multimedia support – so you're ready to work from the moment you power on.
- The included keyboard and mouse set means you have a complete workstation out of the box, saving you time and procurement costs.

Whether you are controlling machinery, running data acquisition, or managing a digital signage network, the Neo H Mini PC delivers the power and resilience you can count on. It's industrial-grade performance, packaged in a compact form factor that fits neatly into any control cabinet or desk.

Choose the Neo H – and get the job done, reliably and efficiently.
