Uncompromising power for the toughest industrial tasks.

Built for Industry

The Neo H Mini PC is the high-performance flagship of our bestselling Neo series. Designed as an industrial workhorse, it delivers the muscle you need for demanding control systems, edge computing, and automation tasks. No fluff, just raw, reliable performance where it counts.

Designed and Made in India

Every Neo H is 100% designed and manufactured in India. Its solid steel chassis, finished with a durable powder coating, shrugs off the bumps and vibrations of a factory floor. This is a machine built to last, not a consumer toy.

Connectivity That Counts

A generous selection of USB 3.2 Gen 1 and USB 2.0 ports, along with HDMI and VGA outputs, ensures seamless integration with your existing industrial peripherals, monitors, and legacy equipment. Dual Ethernet means reliable network connections for mission-critical operations.

Your Operating System, Your Way

Supplied without an operating system, the Neo H gives you complete freedom to install the Linux, Windows, or custom RTOS that your application demands. No bloatware, no compromises.

The Smart Choice for Serious Applications

Whether you are controlling a production line, running a digital signage network, or powering a kiosk, the Neo H Mini PC provides the dependable, high-throughput computing you need. It is the upgrade your industrial setup has been waiting for.
