Power that drives industry, built to last.

Engineered for industrial excellence

This is the high-performance version of our bestselling Neo series, purpose-built for environments where reliability is non-negotiable. The powerful AMD Ryzen 5 processor and generous memory configuration handle complex industrial control tasks, real-time data processing, and multitasking with ease. Whether you're automating a production line, managing SCADA systems, or running edge analytics, this mini PC delivers consistent, responsive performance.

A robust foundation for demanding work

Housed in a solid steel chassis with a durable powder-coated finish, this machine is designed to endure the rigours of factory floors, control rooms, and remote installations. Its compact form factor fits neatly into tight spaces while offering a surprising wealth of connectivity options. Multiple USB ports, HDMI, VGA, and gigabit Ethernet let you connect legacy equipment, modern displays, and peripherals without compromise. Built-in dual-band Wi-Fi and Windows 11 IoT Enterprise LTSC provide a secure, flexible platform you can rely on for years.

Proudly made in India, supported globally

Every unit is 100% designed and manufactured in India, meeting stringent quality and certification standards. You get the peace of mind of local engineering, robust support, and a product that stands the test of time. From industrial controllers to kiosk systems, the Neo H Mini PC is the workhorse your operation deserves.
