Power through your workload without breaking stride.

Meet the Thinvent® Neo H Mini PC, the high performance edition of our bestselling Neo model. It brings AMD Ryzen 5 muscle to your desk, your shop floor, or your control room, and it simply gets on with the job.

Why teams choose the Neo H

- Everyday speed you can feel. The AMD Ryzen 5 7530U processor keeps applications responsive, so staff spend less time waiting and more time working.
- Built for real workplaces. A powder coated steel housing stands up to the knocks, dust and long shifts that ordinary office PCs were never designed for.
- Connect everything you already own. HDMI and VGA outputs, four USB ports, gigabit Ethernet, speaker out and mic in mean your existing monitors, peripherals and networks plug straight in.
- Ready the moment it arrives. Windows 11 Professional comes preloaded, and a Thinvent keyboard and mouse set is in the box, so you are productive within minutes.
- Reliable power, wherever you are. The 12V adapter works from 100 to 240 volts AC, handling the voltage swings common on industrial sites.
- Made in India, made to last. Designed and manufactured here, with BIS, RoHS and ISO credentials behind it.

  Ideal for industrial control, production line terminals, kiosks, retail counters and back office systems.

  If you need a compact machine that works as hard as you do, the Neo H is the one to buy.
