Engineered for the long haul: The silent workhorse for demanding environments.

Uncompromising Reliability for Your Core Operations

Forget fragile office PCs. The Thinvent Industrial PC IPC1 is built from the ground up for endurance. Its robust, solid aluminium chassis with a distinctive finned design isn't just for looks—it actively dissipates heat, enabling a completely fanless system. This means utterly silent operation and, crucially, no internal fans to suck in dust and grime. It's 100% designed and built in India to thrive in the real world, from the factory floor to the busy office.

Why This Is Your Smartest Investment

- Experience unwavering performance with a powerful, efficient Intel processor, delivering smooth operation for essential business software and kiosk applications.

- Gain total peace of mind with a system that won't fail due to dust buildup or noisy fan failure, minimising downtime and maintenance headaches.
- Enjoy ultimate installation flexibility; its compact, VESA-mountable design tucks neatly behind a monitor or mounts securely almost anywhere.
- Get started immediately with a complete, ready-to-run package including the reliable Ubuntu Linux OS and a Thinvent keyboard and mouse set.

Choose the robust computing foundation that simply works, day in and day out.
