Engineered for the long haul: The silent workhorse for demanding environments.

### Uncompromising Reliability for Your Core Operations

Forget fragile office PCs. The Thinvent Industrial PC IPC1 is built from the ground up for endurance. Its robust, solid aluminium chassis with a distinctive finned design isn't just for looks—it actively dissipates heat, enabling a completely fanless system. This means utterly silent operation and, crucially, no internal fans to suck in dust and grime. It's 100% designed and built in India to thrive in the real world, from the factory floor to the busy office.

### Why This Is Your Smartest Investment

- Experience unwavering performance with a powerful, efficient Intel processor, delivering smooth operation for essential business software and kiosk applications.

- Gain total peace of mind with a system that won't fail due to dust buildup or noisy fan failure, minimising downtime and maintenance headaches.
- Enjoy ultimate installation flexibility; its compact, VESA-mountable design tucks neatly behind a monitor or mounts securely almost anywhere.
- Get started immediately with a complete, ready-to-run package including the reliable Ubuntu Linux OS and a Thinvent keyboard and mouse set.

Choose the robust computing foundation that simply works, day in and day out.
